-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Status of Claims

1. Claims 10-13 and 16-18 are currently under examination, wherein no claim has been amended in applicant's reply filed on March 2nd, 2010. Applicant's affirmation of the election without traverse of Invention I, Claims 10-13 and 16-18, in the reply filed on March 2nd, 2010 is acknowledged. The non-elected Invention II, Claim 14 and 15, has been withdrawn from consideration by the examiner.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 10-13 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over JP 2000-095577 A.

With respect to claims 10-13, JP ('577 A) discloses a hydroxylapatite metal composite comprising metallic materials containing Ti, Au and Ag (abstract and paragraph [0032]). JP ('577 A) further discloses a process for manufacturing the

Art Unit: 1793

hydroxylapatite metal composite comprising preparing a powdery mixture of hydroxylapatite and a metallic material; compacting the mixture into a green compact; and discharge-plasma-sintering the green compact (paragraphs [0022]-[0069]), which appears to be similar to the process of manufacturing the claimed hydroxylapatite metal composite as disclosed in the instant specification. JP ('577 A) does not specify the metal network as claimed in claim 10. However, it has been well held where the claimed and prior art products are identical or substantially identical in structure or composition, or are produced by identical or substantially identical processes, a prima facie case of either anticipation or obviousness has been established. In re Best, 562 F.2d 1252, 1255, 195 USPQ 430, 433 (CCPA 1977), MPEP 2112.01 [R-3] I. In the instant case, the claimed and JP ('577 A)'s hydroxylapatite metal composites are identical or substantially identical in structure or composition and are produced by identical or substantially identical processes as discussed above, therefore a prima facie case of obviousness exists. The same metal network as claimed in the instant claim 10 would be inherent or would be expected in the hydroxylapatite metal composite of JP ('577 A) as in the claimed hydroxylapatite metal composite.

3. Claims 16-18 are rejected under 35 U.S.C. 103(a) as being unpatentable over JP 2000-095577 A.

With respect to claims 16-18, JP ('577 A) discloses that the hydroxylapatite metal composite may be used as dental or bone implants (paragraphs [0065]-[0068]).
